

## BH-485-pH Digital pH Sensor

### ■ Characters

- The characteristics of industrial sewage electrode, can work stably for a long time
- Built in temperature sensor, real-time temperature compensation
- RS485 signal output, strong anti-interference ability, the output range of up to 500m
- Using the standard Modbus RTU (485) communication protocol
- The operation is simple, the electrode parameters can be achieved by remote settings, remote calibration of electrode
- 24V DC power supply.

### ■ Technical specifications

|                       |   |
|-----------------------|---|
| Model                 | BH-485-pH                                     |
| Parameter measurement | pH, Temperature                               |
| Measure range         | pH:0.0~14.0<br>Temperature: (0~50.0) °C       |
| Accuracy              | pH: $\pm 0.1$ pH<br>Temperature: $\pm 0.5$ °C |
| Resolution            | pH:0.01pH<br>Temperature:0.1°C                |
| Power supply          | 24V DC  |
| Power dissipation     | 1W  |
| communication mode    | RS485(Modbus RTU)                             |
| Cable length          | Can be ODM depend on user's requirements      |
| Installation          | Sinking type, pipeline, circulation type etc. |
| Overall size          | 230mm×φ 30mm                                  |
| Housing material      | ABS   |
